REPLY TO PAPER NO. 4

Sir:

In response to the office action mailed December 27, 1999,
please amend the above-referenced patent application as follows:

In the Claims

Claim 10, line 1, delete "8" and insert in lieu thereof
--9--.

Claim 11, line 1, delete "8" and insert in lieu thereof
--9--.

Please cancel claims 1-7 and 16-20.

Remarks:

Claim 11 was objected to on the grounds that "Onmnemonic"
is a trademark. It is not a trademark. See Denning, Adam,
ActiveX Controls Inside Out, 2nd Edition, Microsoft Press, p.
110. It is simply a method that may be utilized in a given
software programming language. In accordance with convention,
it is capitalized, not to indicate that it is a trademark, but
because such methods are generally capitalized in this fashion.
